Re: Permit Release Requirements, Corporation of the Presiding Bishopric, Little Cottonwood Granite Quarry, S/035/017, Salt Lake County, Utah

Dear Mr. Nielsen:

On September 4, 2001, we received the annual permit fee for the site referenced above. Thank you for your cooperation in submitting this fee; however, the form you submitted with the fee indicates you are requesting an inspection to close out this permit. On August 7, 2001, we wrote you and explained that we inspected the site and found it did not meet release requirements. In addition, the Utah Minerals Regulatory Program requires a period of at least three years after the last seeding before the site can be released. Although we previously explained these issues, we wanted to clarify the requirements since the form you submitted requested an inspection to close out the permit.

If you need further information or clarification, please call me at 801-538-5261.

Sincerely,

A handwritten signature in black ink, appearing to read 'P B Baker'.

Paul B. Baker
